<p>This qualification allows individuals to develop post-trade skills and knowledge to become specialists within the agriculture industry. It is designed to meet the needs of supervisors or team leaders in the agriculture industry.</p> <p>Individuals with this qualification will take responsibility for their own work and for the quality of the work of others within known parameters. They provide and communicate solutions to a range of predictable and sometimes unpredictable problems.</p>	

## **Entry Requirements;**

The training package does not specify any specific entry requirements for this qualification, however, to be successful in completing this qualification, Central Outback Training requires students to;

- Be employed at supervisor or management level with a Central Outback Training approved employer, and satisfy the eligibility requirements to undertake a traineeship
- Undertake a prior skills and knowledge checklist & an assessment of your language, literacy and numeracy skills to determine if you require additional support

## **The program of study:**

Delivery is full-time on-the job in the workplace and will include 3 – 4 onsite training visits by the Trainer.

Students must undertake a minimum of **30** hours of self-paced study in between training visits to complete the entire program within the recommended timeframe of 12 months. Further training will be provided if necessary. Learning materials in the form of weblinks and/or YouTube clips are provided within the Student Diary for support and progression.

Feedback and information regarding competency, progress and study will be provided by the Trainer on a regular and on-going basis.

## **Training and assessment support services:**

Central Outback Training recognises that not all people learn in the same manner, and that with an amount of “reasonable adjustment” students who may not learn best with traditional learning and assessment methods will still achieve good results.

Reasonable adjustment may be offered to students with a disability or learning difficulty according to the nature of the disability or difficulty. Reasonable adjustments are made to ensure that the student is not presented with artificial barriers to demonstrating achievement in the program of study. Reasonable adjustments may include the use of adaptive technology, educational support and alternative methods of assessment such as oral assessment.

## **Central Outback Training Student Handbook:**

For detailed information regarding training and assessment support, recognition of prior learning, client services and many other important topics please refer to the Student Handbook available to view or download on our website at [www.centraloutbacktraining.com.au](http://www.centraloutbacktraining.com.au)
