

CENTRAL OUTBACK TRAINING

Specialised Training Courses

These training courses are tailored to your workplace, delivered in the workplace and are nationally recognised.

Costs for specialised training will be finalised once there are final numbers and delivery location.

Chemical Training– Duration 1 - 2 days (approx. \$400pp)

Anyone who uses agricultural or veterinary chemicals in an agricultural environment (small or large) can learn how to meet their obligations in the safe transport, handling, storage and application of chemicals. In some states/territory's you need to hold the competencies below to apply for a license to buy ag/vet chemicals.

On completion of this course you will receive a Statement of Attainment in;

- **AHCCHM304 Transport and store chemicals**
- **AHCCHM307 Prepare and apply chemicals to control pest, weeds and diseases**
- **AHCPMG301 Control Weeds**

Competency in the above units will require the participants to have the skills and knowledge to;

- Safely prepare and apply chemicals
- Safely transport and store chemicals
- Implement weed control options
- Managing risks and hazards
- Chemical application equipment and managing spray drift
- Integrated Pest Management
- Calibration techniques
- Managing chemical residues
- Safe disposal of unwanted chemicals

Motorbikes Safety Training– Duration 1 day - (approx. \$200pp)

The purpose of this training is to help reduce the risk of injuries and fatalities by providing practical skills and knowledge to operate and manage various two-wheeled motorbike hazards.

On completion of this course you will receive a Statement of Attainment in;

- **AHCMOM201 Operate two wheel motorbikes**

Competency in the above unit will require the participants to have the skills and knowledge to;

- Conduct pre-operational checks
- Load and unload bike.
- Operate a bike on uneven surfaces and over different terrains
- Conduct skilled manoeuvres
- Complete maintenance and logbooks

Quad and Side by Side Safety Training – Duration 1 day (approx. \$200 each unit)

Every year quad bikes are a major cause of death and serious injury in rural workplaces with many incidents associated with rollovers. The risk of a rollover increases if the vehicle is crossing slopes, travelling at high speed, towing an attachment, travelling over rocky or uneven ground or carrying a heavy or unstable load, for example chemicals for spraying.

On completion of this course you will receive a Statement of Attainment in either /or both;

- **AHCMOM216 Operate side by side utility vehicles**
- **AHCMOM217 Operate quad bikes**

Competency in the above unit will require the participants to have the skills and knowledge to;

- Conduct pre-operational checks
- Load and unload
- Operate on uneven surfaces and over different terrains
- Operate with an attachment
- Complete maintenance and logbooks

Tractors Safety Training – Duration 1 day (approx. \$200 each unit)

The purpose of this training is to help reduce the risk of injuries and fatalities by providing practical skills and knowledge to operate tractors and control hazards.

On completion of this course you will receive a Statement of Attainment in either;

- **AHCMOM202 Operate tractors**
- **AHCMOM207 Conduct front-end loader operations**

Competency in the above unit will require the participants to have the skills and knowledge to;

- Conduct pre-operation safety checks
- Conduct maintenance
- Select and attach implement
- Operate / complete work tasks
